Affiliated to CBSE – New Delhi, Affiliation No: 5730019

Subject: MATHEMATICS

CLASS-6

Worksheet-2-TERM-2(2021-22)

I. FILL IN THE BLANKS:

1. Comparing a quantity with another quantity is called_____
2. Area is the amount of _____ a closed shape occupies.
3. Breadth of a rectangle is given by the formula: Area divided by _____
4. The ratio of 50g to 2 kg = _____
5. One equivalent ratio of 6: 4 = _____
6. Two prime numbers with a gap of only one number between them is called _____
7. If 2 and 5 are factors then _____ is their multiple.
8. The ratio of 1 hour to 300 seconds is_____
9. To calculate side of a square when perimeter is given, we divide perimeter by_____

II. ANSWER THE FOLLOWING QUESTION:

10. In a school there were 73 holidays in a year. What is the ratio of number of holidays to number of days in the year?
11. The perimeter of a square painting is 5m 40cm. Find the length of each side.
12. The cost of levelling a playground 51m long and 40m wide at Rs 35 per square meter. Also, find the cost of fencing it at Rs 50 per meter.
13. The perimeter of a square is 48m. The area of a rectangle is 4 sq.m less than the area of the given square. If the length of the rectangle is 14m, then find its breadth.
14. How many tiles of length 16 cm and breadth 5 cm will be required to fit in

a rectangular area of 96 cm x 60cm?

15.Sharma wants to divide ₹ 55,000 between his sons-Rahul and Mohit in the ratio of their ages. If age of Rahul is 18 years and age of Mohit is 12 years, find how much Rahul and Mohit will get?

16.

X	5	6	7	8	12	15
Value	2	3	4	5	9	??

a) Find the rule for the pattern

b) Using the rule ,what is the value when X= 15

17.Which of the following pairs is a co-prime?

a) 18 and 35

b) 17 and 68

18.Draw a circle and measure its radius and diameter.

19.Find the length of the diameter of a circle with radius 6 cm.
