Instructions to the Candidates:

1. Please check that this question paper contains all the printed pages.
2. All answers must be written in the space provided.
3. Do not write anything in the margin.
4. Do not leave the examination hall without handing over the answer paper to the invigilator.

[Handwritten signature]

SECTION A-(READING)

A.1 Read the following and answer the questions.

(10marks)

Hurricane

A hurricane, also called a tropical cyclone, is the most powerful storm that forms on Earth. A hurricane forms over warm ocean water. As it grows in size and intensity, its powerful winds begin rotating around a center like water going down a drain. Because of the physics phenomenon known as the Coriolis Effect, hurricanes that form in the Northern Hemisphere feature winds that move counterclockwise, while those that form in the southern hemisphere feature winds that move clockwise. In the center of a powerful hurricane (called the eye), air may sink rather than rise, which suppresses cloud formation, leading to calm skies and wind. The eye of a hurricane can be up to 240 miles in diameter, but is normally between 20 and 40 miles in diameter. The clouds on the edge of the eye form the eyewall of the hurricane, which typically feature the hurricane's strongest winds, highest clouds, and fiercest precipitation (Waterfall on earth).

When its winds reach 39 miles per hour, it becomes a tropical storm, and as the storm continues to expand, and its winds reach 74 miles per hour, it is a hurricane or tropical cyclone where it will receive a name (like Hurricane Katrina). By this time, the massive storm is 50,000 feet high and 125 miles across. Winds from the hurricane can extend hundreds of miles from the center or "eye" of the hurricane, which itself may be 30 miles across. The most powerful hurricanes can sustain winds of over 156 miles per hour. When hurricanes hit land, they cause massive damage, storm surges, major wind damage, rogue waves, and flooding. Once they hit land, however, they quickly weaken as they are longer being powered by warm ocean water.

1.) Which is NOT true about a hurricane?

- A. A hurricane is the most powerful storm on Earth
- B. Hurricane winds in the Northern Hemisphere rotate clockwise
- C. The eye of a hurricane usually has calm skies
- D. The eye of a hurricane can be up to 240 miles in diameter

2.) What is the author's purpose in writing the following passage?

- A. The author wants to entertain
- B. The author wants to persuade
- C. The author wants to inform you about hurricane.
- D. The author wrote it for himself.

3.) The hurricane's most damaging winds and precipitation occur in...

- A. The eyewall
- B. The eye
- C. the passage doesn't say
- D. the outer bands

4.) What does "supresses" mean in the following sentence?

In the center of a powerful hurricane (called the eye), air may sink rather than rise, which supresses cloud formation, leading to calm skies and wind.

- A. Hold Back
- B. Raise
- C. Circle
- D. Increase

5.) When hurricanes hit land....

- A. they turn into tornadoes
- B. they return to the ocean
- C. they strengthen
- D. they quickly weaken

6.) Which of the following could be considered the theme of the second paragraph?

- A. Flooding caused by hurricanes
- B. When tornadoes strike
- C. The power of a hurricane
- D. The science behind hurricane formation

ppap

7.) When do hurricanes receive names?

- A. When winds reach 39 miles per hour
- B. When winds reach 74 miles per hour
- C. After they hit land
- D. When the damaged is assessed

8.) Which question is NOT answered in the passage?

- A. How wide can a hurricane's eye be?
- B. Why do hurricanes weaken?
- C. How high does a hurricane get?
- D. Where did Hurricane Katrina hit?

9.) Which of the following could be a title for the passage?

- A. Hurricane Katrina
- B. Wind Speeds of Hurricanes
- C. The Basics About Hurricanes
- D. Why Hurricanes Weaken

10.) The eye of a hurricane can be up to 240 miles in diameter, but is normally between _____ and _____ miles in diameter.

- A. 20 and 30
- B. 20 and 40
- C. 30 and 40
- D. 40 and 50

A2. Read the poem and CIRCLE the phrases that has PERSONIFICATION.

(5marks)

TALL TREES

With their feet in the earth
And their heads in the sky
The tall trees watch the clouds go by.

When the dusk sends quickly
The birds to the rest,
The tall trees shelter them
Safe in a nest.

And then in the night
With the tall trees peeping,
The moon shines down
On the world that's sleeping.

SECTION B-WRITING

B.1 Write a short persuasive essay on "Should We Eat Chocolates Or Not". (5marks)

B2. Write a paragraph on 'A Bright Sunny Day'. Use one Simile and one Metaphor in your writing. (5 marks)

ppw

SECTION-C(GRAMMAR)

C.1. Use your five senses and write one sentence in front of each word also mention the sense you used to write the sentences. (10 Marks)

| Word | Sense | Sentence |
|-----------|-------|----------|
| River | | |
| Ice Cream | | |
| Birds | | |
| Clothes | | |
| Flower | | |

SECTION-D (LITERATURE)

D.1 Answer the following questions:

(2x5=10marks)

1. Do you think playing video games is good for us or bad for us? Write your opinion with supporting evidence.

2. What do Boochi and the panther cub do together? Why does this worry Vidhur?

3. How does Vidhur help in uniting the mother panther with her cub?

4. To whom we can write an informal letters?

5. Why do you think Megha preferred playing football to play video games?

D.2. State whether the following statements are True or False. (2marks)

- a. Boochi and cub snuggle into Vidhur's lap in the garage. _____.
- b. Wild animals were often found in and around the tea estate. _____.
- c. Vidhur locked the mother panther in the garage. _____.

d. The mother panther hurt and ate other animals as she went searching for her cub. _____.

D.3. Identify the Types of Evidence from the following extract taken from 'Are Video Games a Good Source of Entertainment'. (3marks)

a) A researcher named Bavelier found that playing video games can actually to help improve vision. _____.

b) One scientific study found that violent video games could teach children violent behaviour. _____.

c) Megha knew from watching her friends that there were some bad consequences of playing video games. _____.

d) In the Bates Middle School, there has been a 23% drop in the number of suspensions since art has been included in everyday studies. _____.

e) Author Dee Dickerson says "Art helps students develop skills faster and even improve memory _____.

f) Television helps us learn about new places and things. _____.
