

WORKSHEET -1

EVALUATION-3 2017-18

Class : III

Subject : Science

[Blocks 18,19,20,21,23]

I. Fill in the blanks.

1. _____ is the process by which a liquid changes into its gaseous form without heating.
2. Solids have a fixed _____
3. Soil is an _____ resource.
4. _____ is a part of soil that is made by the decay of plants and animals.
5. It takes _____ of years for soil to form.
6. _____ are threads that make fabrics.
7. _____ Fabrics can soak lots of water.
8. A force between two objects in contact is called _____
9. A _____ can attract things made of iron towards itself.
10. _____ is an imaginary line that passes through the centre and the two poles of the earth.
11. The imaginary path of the earth is called _____
12. The earth takes _____ to complete one rotation.

II. Define the following:

1. Rotation
2. Revolution
3. Magnetic force
4. Force
5. Condensation

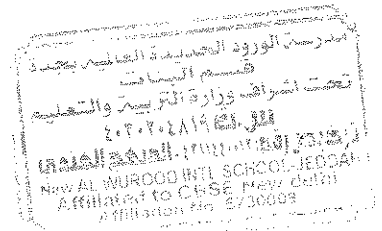

III. State true or false. If false correct it.

1. Gases have fixed shape and volume
2. The process by which a liquid changes to gas on heating is called evaporation.
3. Jute is a natural fiber.
4. Force can stop moving objects.

5. Rotation of the earth on its axis causes day and night.

IV. Answer the following questions.

1. Describe the shape of the earth
2. Explain how phases of the moon occur.
3. What are the effects of force on an object?
4. What is the difference between natural and artificial fibres?
5. Draw a diagram to show layers of soil.
6. What are the uses of soil?
7. If you have to choose a fabric to make a dress for underwater diver, which fibre would you choose? Why?
8. Why are cooking aprons made of cotton fibre?
9. We rub our hands in winter. Give reason
10. What would happen to day and night if the earth was flat?
11. Why are air and water in the soil important?
12. What is same and different about boiling and evaporation?
13. Is sand a solid, a liquid or a gas? Give reasons for your answer.
